The Future Today

In recent times man has turned his attention more and more to the conquest of space. Although specific reasons have been given as to why this is necessary, much of the efforts directed at achieving supremacy in space are attributed to man's yearning to know the "why" of the stars themselves.

A rocket launching, the astronauts, artificial satellites, and thousands of other modern devices are familiar to many today. The vast amount of technical and complex information, which makes possible the construction and function of these tools for space conquest, has as a basis the laws and principles that were discovered thousands of years ago and were developed through passing time.

Many of these principles are realized by students in high schools and colleges across the country. This points out the importance of education in our modern world. What we learn today may prove to be the bit of information that makes success in future endeavors, whether in the outer stratosphere or in normal life.

Dear Mr. Doster,

We, the student body of Michigan Center High School, would like to take this opportunity to thank you for all you have done for us. Your time spent with us as teacher, counselor, and above all, friend, was greatly appreciated. Your knowledge has enriched our school for years.

It is for these reasons and many more we dedicate our book, the 1963 edition of the "CARDINAL," to you.

Sincerely,
The Student Body of
Michigan Center High School

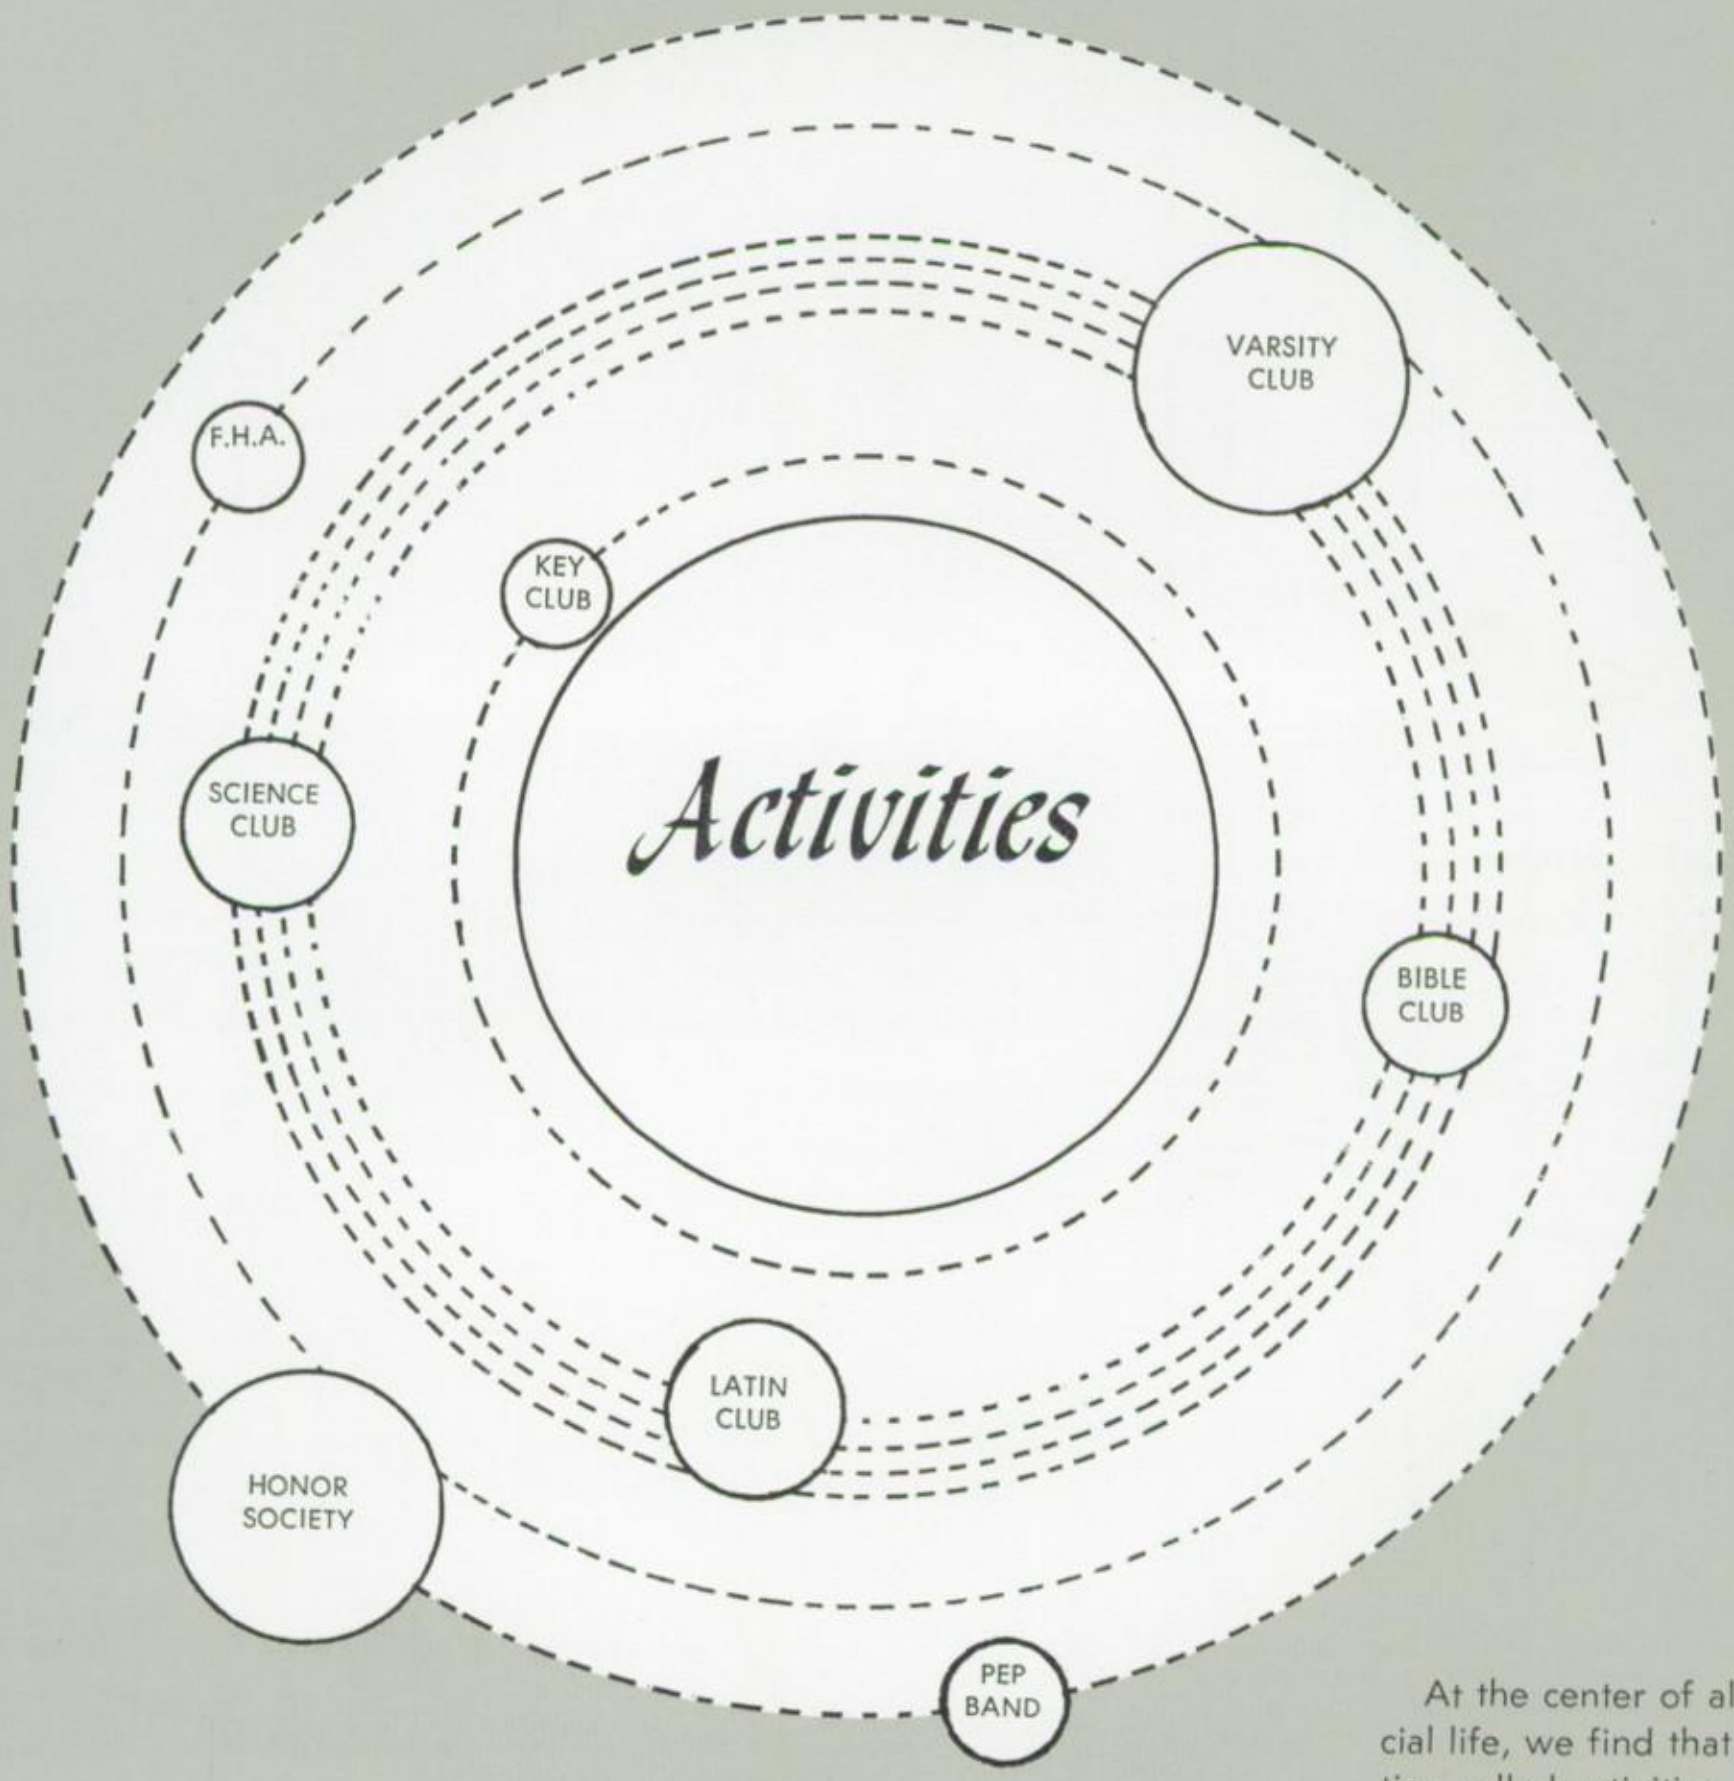
In that marvelous void called space, there are billions of stars about which smaller satellites revolve. These enormous spheres serve as the center of all space activitiy.



At the center of all social life, we find that section called activities, and from the different clubs and organizations, which act as satellites, the students draw most of their memories of Center High.

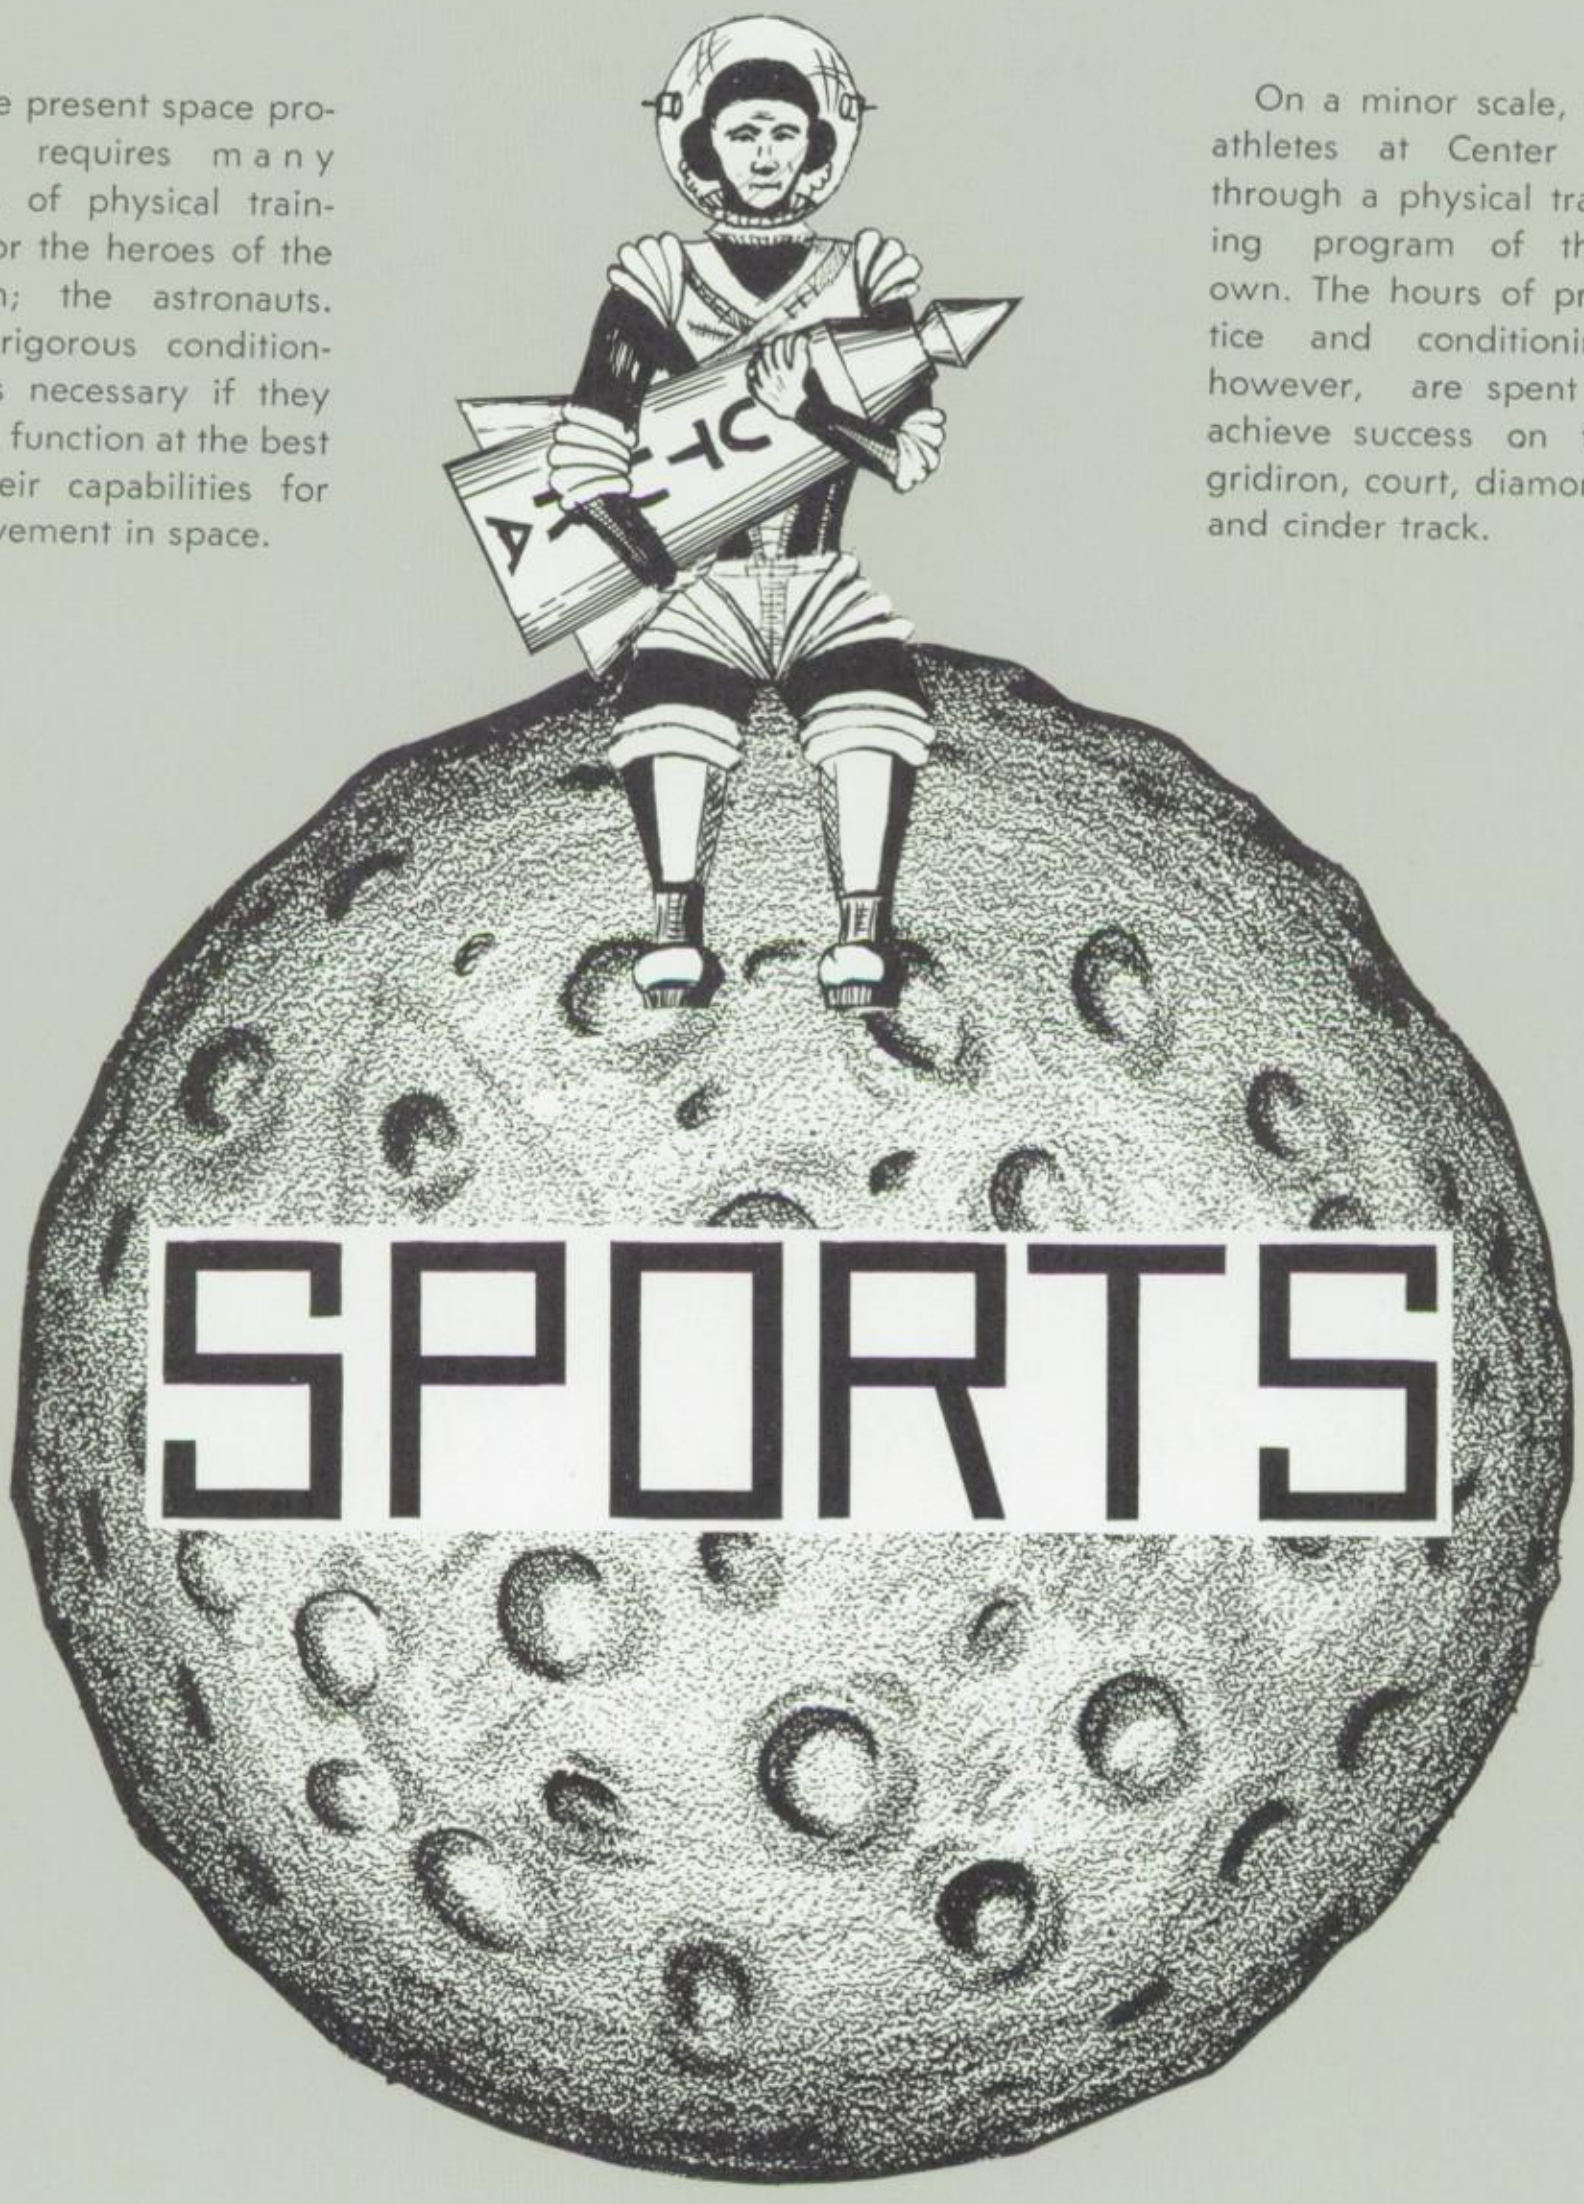
Seniors Sing Farewell!

The present space program requires many hours of physical training for the heroes of the nation; the astronauts. This rigorous conditioning is necessary if they are to function at the best of their capabilities for achievement in space.



On a minor scale, the athletes at Center go through a physical training program of their own. The hours of practice and conditioning, however, are spent to achieve success on the gridiron, court, diamond, and cinder track.

Center Is Spoiler in '62-'63

The basketball season found the Cards in a "spoiler's" position as they upset, or thoroughly scared, some of the top-ranked area teams. They displayed strong rebounding, a powerful fast break, and harassing defense which posed problems to any and all opponents.

SEATED, L to R: Mr. Edward Rockwell, Mr. Z. W. Killgore, Mr. Clifford Williamson, and Mrs. E. S. Masters. STANDING, L to R: Mr. Duayne Showerman, Mr. Charles Parker, and Mr. Burton Warner.

The main function of the board is to make the policies which govern the school. This includes preparing a budget, setting up means for teaching subject matter, and providing all the necessary buildings and equipment so that the education of the young in Michigan Center is carried out under the proper conditions.

The school board is always concerned for the student body as an individual, and for the student body as a whole. They provide all that is necessary for the high level of education in Michigan Center.

MR. EDWARD ROCKWELL

Mr. R. F. Keicher

SUPERINTENDENT

All great enterprises, if they are to meet with success, need a strong guiding hand. We sincerely believe that the success of Michigan Center High School is attributed to the guiding hands of Mr. Keicher.

Mr. Orville McLaury

PRINCIPAL

We the students of Michigan Center High School wish to express our gratitude for your loyalty, and willingness to help us in any situation. It is greatly appreciated by the whole student body.

Administrative Assistant

Mr. Smith

A new administrative position has been added this year. Mr. Daniel Smith, formerly principal of Clement Elementary School, has joined the staff as Administrative Assistant. His main duties include interviewing future teachers, and to provide a bus schedule. He also assists the Superintendent by carrying out administrative policies, and also acts as an assistant to Mr. McLaury.

Mr. Clark points out locations on a map for students.

"I have but one lamp by which my feet are guided, and that is the lamp of experience.

I knew of no way of judging the future but by the past."

The above statements, uttered by Patrick Henry, succinctly express the reasons for the study of history. All of our experiences are history, and it is through these experiences, or the experiences of others, that we can reasonable predict the future. It is only through the study of the history of man (and his experiences) that we can hope to acquire the knowledge necessary to make the world a better place to live—not only for ourselves, but future generations as well.

The Need for Mathematics Never Ends

Man-made satellites, guided missiles, and modern computers have emphasized the need for trained mathematicians.

To meet the demands of industry, business, and science, many schools have stepped up their mathematics programs. Algebra and geometry textbooks having a modern approach are being used in our school for the first time this year.

MRS. CONNIE WILLIAMS
Librarian
University of Michigan

After several years of hard work, the library has finally met North Central requirements. 400 books have been purchased and added to the library this year bringing the total up to 4,889.

Library

Mrs. Williams gives pointers to Deadre Phillipi, Diane Spreen, Karen Parrish.

Art

Art classes are conducted on an individual pupil basis. In both beginning and advanced classes, students are offered opportunities to explore art through the various medias, choosing and rejecting that which does and does not appeal to them. The basic elements of art are taught, as well as appreciation and history of art.

The English Department makes certain that the parts of speech and their combinations are used correctly. A person's success depends a great deal on how he communicates with others. Therefore, correct language usage is of great importance today.

Business Education

Not all of our students will go to college, but all must live in a world of business. Business is a large part of our American economy and is an important foundation of our democracy. Here at Michigan Center we are striving to expand our business curriculum as fast as big business is growing.

We have made plans to offer more and better business courses to our ever increasing student body.

The languages offered at Michigan Center are Latin and Spanish. We offer a two-year course in both subjects. Latin has an emphasis on translation and word study. Spanish has an emphasis on speaking, reading understanding and area studies.

Our Latin students have a better understanding of the English language both in construction and vocabulary. At the present, our Spanish classes are putting emphasis on the oral-aural method of learning this language.

Second year Spanish students find the new lab very helpful in learning the basics of this difficult language.

Languages

Mrs. Demay asks for translations from students in Latin class.

MR. EDWARD VALSI—Counselor
Michigan State University

The counseling service strives to help each student to become progressively more able to help himself. The orientation program is designed to acquaint new students with the policies, procedures, and opportunities at Michigan Center.

Counseling

Mr. Valsi helps Bob Shannon make out next year's schedule.

"How long can you stay like that?" says Mr. Anderson to Alan Campbell, as from left to right, Ted Watkins, Jim Clemens, Terry Moorehead, Dick Dodge, Garry Holmes, Jack Curtis, Bob Henderson and Leigh Perrine look on.

PHYSICAL EDUCATION strengthens students physically and helps them to adjust to physical tasks without over-exertion.

Mrs. Barry and Mr. Anderson both agree that physical education classes are one of the most important steps towards Mr. J. F. Kennedy's fitness program.

MRS. BETTY BARRY

Rain, Rain, go away come again some other day! During the spring months of the year the girls in gym class get to practice archery outside, but as you can see, when it is raining outside the girls get together for a little "hootenanie" inside the gym.

Home Economics

The Home Economics course is designed to prepare the girls for their future role of homemakers. In Homemaking we learn about foods and nutrition, clothing, child care, home nursing, first aid, family finance, family relations, and home furnishings. One of our big events of the year is the annual style show.

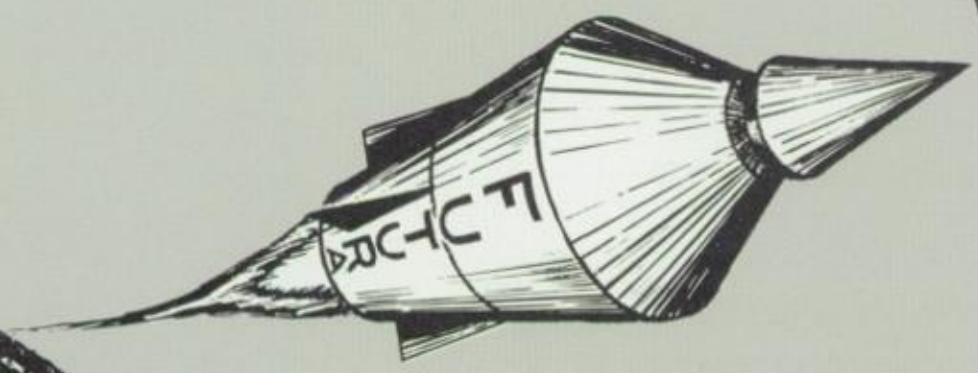
SENIORS



"Knowledge Comes by Study Wisdom by Experience"

We have traveled far, and yet we have just arrived at the beginning of life. We have left some of our best years behind, but much of what we have left will be carried on in memory through the many full, rich years ahead.

Yes, memories we have. The exciting, colorful football games, the wonderful proms, the fun-filled parties, and the class trip will look even brighter when, as sentimental alumni, we reflect on those times in later years.

Our accomplishments were many and our successes merited, and we bore the traditions of Center High with pride and perseverance. With humbleness we leave a heritage that wās gained by our virtue and maintained by our virtue.

Congratulations, Seniors:

Congratulations, and the best of luck. Senior pictures are important, and there's no need to have yours, less than the best.

Confidentially, we have a wonderful gift for you, and a special gift for your parents, when you have your pictures made at Dunhanna.

Good pictures, personally posed, and lighted to show the "good" you, with special attention if you have a problem, is the kind of pictures you need. Dunhanna pictures "do" more for you. You will be proud to show and give your senior picture, by Dunhanna.

We have special student prices, that make the cost no greater than ordinary school pictures. You will get complete personal attention to every detail, to show the best that is you.

In fairness to yourself, you should have your picture taken by Dunhanna, and get your set of preview proofs. Then compare them with any other. You've nothing to lose, and much to gain by comparing Dunhanna pictures with other school pictures. Good luck.

Dlon, (my Pape)
So the most wonderful guy in the world, who I love m
than anything else, I wish all the luck in anything you
ever do. I couldn't even start to tell you how much I
think of you or how much I love you, not even with
two pages! But I know some day and some way I'll
get it across to you. Maybe it won't be 'till August
8, 1967, but I'll do it! Sweetheart, always remember
the wonderful times we've had together. The past
seven months have been the most wonderful of my
life. Don't ever forget our "stumbling start" that
we got off <u>two</u>, and <u>all</u> of our difficulties. Now
when I look back on it, I can laugh and think
how foolish we were, but I can't really say that
I did then. I'm not saying that we won't hav
anymore difficulties, because undoubtedly we
will, it's only natural, but I will say honey
that I know now that things will always
straighten out. Remember all the good times w
had this summer and all the good fights, no
Really there wasn't <u>that</u> many fights!!! (Was
But there <u>was</u> <u>twice</u> as many good times!!! Do
Not to mention all the excuses we've had to make f
being late. Remember the night we went to the "ca
with Tim & Carol, and "got held up in the traffic" ???
And the night we went to Cascades with Jackie & Huey.
..... What was our excuse that time ??? Augh! A
... Oh yeah!! The time we went for a ride with Tim
and on your way home from my house, you forgot to
up Tim!!! It seemed awful then, but I can
laugh now! Oh, and don't forget the Prom, I rem

ember how worried I was about those stupid shoes, and how determined I was to wear them so I wouldn't be so darn short. I was sure I was gonna fall and break my neck or somping! But we had fun, didn't we! And then there's the morning you rode your bike over to my house, and I was joist gettin' up, with my pajamas on, and curlers in my hair, Boy! If you could have seen the look on your face as I did you would have wanted to laugh too! And then there is just last Saturday .... When we went for a ride .... To ~~two~~ Ann Arbor. We've had lots of fun this summer, ~~to~~ but lets get back to "way back when". That one special night after school in mark's car, gee that seems like a long time ago, dosen't it? And then there's that day we went skating with Shery & Mark what a Brat, hugh?(me, I mean) And we sure can't leave out February 1st. Boy!!! was I ever shocked!!! A dream come true, me going steady, no less, with you when I least expected it. But I should have know it was to good to last, so then came good ol' March 1st. After that I tried to act as if I didn't care but just between you and me .... I did! I know I don't have to tell you all this do I. But I think about all these times patched up, and all our good times, and it makes me realize just how much I have to be thankful for .... and the most wonderful thing that ever happened to me ... was you!!! I know all the good times we've had in the past, there will be lots more in the future! Right??? Boy I guess I sure don't have to try hard to fill up two pages, do I? But I'm just gonna have to squeeze one more thing on here, ok? Well it's this, honey.... No matter what ever happens or what I ever say or do, I mean this from the bottom of my heart,... and sometime when your feelin' blue just remember ..... "I love you, a whole bunch of whole Bunches!!!!" And I always will! ("So there")

XXXXX, Love
Lots o'

P.S. Sure hope all of yours and ours dreams come True! Good Luck, and be good. (Please)
